INTERGOVERNMENTAL REVIEW CLEARINGHOUSE REPORT

April 16 through April 30, 2003

SOUTHERN CALIFORNIA ASSOCIATION OF GOVERNMENTS

INTERGOVERNMENTAL REVIEW CLEARINGHOUSE REPORT

This Intergovernmental Review Clearinghouse Report summarizes the federal grant applications, environmental documents and other information received by SCAG's Intergovernmental Review (IGR) Section during the period **April 16 through April 30, 2003**. The Clearinghouse Report consists of two sections, Federal Grant Listing and Environmental Documentation Listing.

The Federal Grant Listing is provided to inform your organization of all grant applications for federal assistance from our region in accordance with Executive Order 12372. The listing includes state sponsored plans and project types such as Housing and Community Development, Urban Mass Transit, and Human Services. The Environmental Documentation Listing describes regionally significant and non-regionally significant facilities (e.g., transportation, wastewater treatment), residential, commercial and industrial projects which have been voluntarily submitted for review by local governments. Environmental documents received include Notices of Preparation, Environmental Impact Reports, Environmental Impact Statements, Negative Declarations and Mitigated Negative Declarations.

Project descriptions on both listings are organized by county: Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura. State plans and other multi-county plans, projects and proposals are grouped under the "Multi-County" heading at the beginning of the IGR Clearinghouse Report.

IGR CONTACT

To include the interest of your jurisdiction or comment on proposed comprehensive planning, areawide coordination or environmental impacts please contact the IGR Section prior to **May 1, 2003**. Please send one (1) copy of all environmental documentation. Also, please provide the name and telephone number of the contact person on your transmittal. We may be reached at:

Mailing Address: **Southern California Association of Governments**
Intergovernmental Review Section
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017-3435

Telephone: (213) 236-1800
Fax: (213) 236-1962

Questions regarding the Clearinghouse Report should be directed to Laverne Jones, (213) 236-1857.

ANNOUNCEMENT

The IGR Section now has a web page. The IGR web page includes staff prepared publications describing items and projects received by the IGR Section, and other web sites that may be useful to persons seeking information about how to comply with CEQA and the CEQA Guidelines. For more information, please visit SCAG's IGR web page at www.scag.ca.gov/igr/.

San Gabriel River Master Plan

Contact: Martin Moreno, (626) 458-4119

Engineered improvements currently present along the San Gabriel River provide flood protection for surrounding urban development. These improvements have also allowed development almost to the river's edge, decreasing open space and altering natural habitats. The San Gabriel River Master Plan will be a consensus-based document that will recognize and address a renewed interest in recreation, open space, an habitat, while also seeking to enhance and maintain flood protection, water conservation

benefits, along with existing water rights. The Master Plan is expected to be ready for Board approval in early 2004. The Master Plan will focus on the 58-mile long San Gabriel River (from Cogswell Dam in the San Gabriel Mountains to the Pacific Ocean).

North Downtown Lancaster Neighborhood Revitalization/Transit Village Plan

Contact: Brian Ludicke, (661) 723-6119

The North Downtown Lancaster Neighborhood Revitalization/Transit Village Plan proposes a combination of new uses, expansion of certain existing uses, and rehabilitation of existing residential uses. The Project proposes development in five planning areas: the Institutional/Recreational Area, Service Providers Area, Multi-Family Residential/Commercial Area, Rehabilitated/New Multi-Family Housing Area and Commercial Center. The proposed Project involves multiple changes within each of the individual planning areas. The Project area consists of approximately 103 acres within an area generally bounded by Avenue 1 to the north, Lancaster Boulevard to the south, the Union Pacific Railroad right-of-way to the east, and 10th Street West to the west. The NDNRTVP Project area is located in the northwestern portion of Lancaster's 330-acre Transit Village planning area.

City of Fullerton
Redevelopment Project No. 4, Amendment No. 1
Contact: Terry Galvin, (714) 738-6877

The Project involves the adoption and implementation of an amendment to the Redevelopment Plan for Project No. 4. This action will extend the Redevelopment Agency's authority to purchase real property in the Project Area eminent domain for an additional 12-year term. The proposed action will not alter the boundaries of the Project Area. Although no development or construction is proposed at this time, the continued implementation of the Redevelopment plan is expected to facilitate commercial, office, industrial/manufacturing and public development in the Project Area in conformance with the Fullerton General Plan and to mitigate various blighting conditions that have been found within the Project Area. The primary goal of the Redevelopment Plan will continue to be the elimination of physical and economic blighting conditions that hinder the full development of the Project Area.

La Cadena Corridor Redevelopment Project Area Draft EIR

Contact: Rod Yahnke, (909) 370-5167

The proposed project entails the creation of a new project area and the adoption of the Redevelopment Plan for the La Cadena Corridor Redevelopment Project Area in the City of Colton in accordance with the standards of the California Community Redevelopment Law (CRL), Health and Safety Code Section 33000, et seq. The purpose of the Redevelopment Plan is to eliminate the conditions of physical and economic blight that exist in the Project Area through rehabilitation of existing housing and buildings, and revitalization and reuse of commercial, industrial and vacant properties. The total Project Area encompasses over 1,700 acres. The Project conforms to the adopted Colton General Plan. For the

purpose of environmental analysis, buildout of the Project Area total a net increase of approximately 955 dwelling units, approximately 350,000 square feet of commercial space, approximately 4.8 million square feet of industrial space and a net decline of approximately 153,000 square feet of public facility space. The project is located within the City of Colton.

Inland Empire Utilities Agency

Implementation of Storm Water, Imported Water and Recycled Water Recharge at the Upland Basin

Contact: Richard W. Atwater, (909) 357-0241

The project proposed for implementation is the physical modification of the Upland Basin to increase the volume of storm water, imported water and recycled water that can be recharged at this Basin to enhance water resources of the Chino Basin. The total potential volume of water proposed for recharge on an annual basis at Upland Basin would range from 7,800 to 10,700 acre-feet, depending on storm water flows, availability of imported water from the State Water Project and availability of recycled water from IEUA at this location.

Over an estimated period of five years, the physical modifications to the Upland Basin is proposed to include: installation of about 1,500 lineal feet of new pipeline; average annual ground disturbance of 2.5 acres; and a total of 82,000 cubic yards are proposed to be excavated from the basin over the next several years.

Upland Basin is located at the southeast corner of Monte Vista Avenue and Arrow Route in the City of Montclair. San Antonio Creek channel is located immediately west of the basin. This site is located in the southwest 1/4 of Section 11, T1S, R8W, San Bernardino Base and Meridian (SBB&M).

CLEARINGHOUSE REPORT

May 1 through May 15, 2003

SOUTHERN CALIFORNIA ASSOCIATION OF GOVERNMENTS

INTERGOVERNMENTAL REVIEW CLEARINGHOUSE REPORT

This Intergovernmental Review Clearinghouse Report summarizes the federal grant applications, environmental documents and other information received by SCAG's Intergovernmental Review (IGR) Section during the period **May 1 through May 15, 2003**. The Clearinghouse Report consists of two sections, Federal Grant Listing and Environmental Documentation Listing.

The Federal Grant Listing is provided to inform your organization of all grant applications for federal assistance from our region in accordance with Executive Order 12372. The listing includes state sponsored plans and project types such as Housing and Community Development, Urban Mass Transit, and Human Services. The Environmental Documentation Listing describes regionally significant and non-regionally significant facilities (e.g., transportation, wastewater treatment), residential, commercial and industrial projects which have been voluntarily submitted for review by local governments. Environmental documents received include Notices of Preparation, Environmental Impact Reports, Environmental Impact Statements, Negative Declarations and Mitigated Negative Declarations.

Project descriptions on both listings are organized by county: Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura. State plans and other multi-county plans, projects and proposals are grouped under the "Multi-County" heading at the beginning of the IGR Clearinghouse Report.

IGR CONTACT

To include the interest of your jurisdiction or comment on proposed comprehensive planning, areawide coordination or environmental impacts please contact the IGR Section prior to **May 30, 2003**. Date Received 5/14/2003 Date Comments Due N/A
(500) Mercy Housing California
HUD Section 202--New Dana Senior Homes
\$ 14,279,685 (total) / \$ 13,449,263 (federal)
Contact: Dara Kovel, (714) 550-5080

The proposed project is for 99 one-bedroom, very low income, service-enriched units for seniors and 1 two-bedroom manager's unit. The area affected by this program is in the City of Los Angeles.

I20030268

Date Received 5/8/2003 Date Comments Due N/A
FAME Renaissance
EDA Grant for FAME's Mixed-Use Commercial Project
\$ 8,000,000 (total) / \$ 2,000,000 (federal)
Contact: Mark Whitlock, (323) 730-7700

FAME Assistance Corporation is going to construct a new shall, 5-story building offering approximately 32,600 square feet of commercial office space for lease, to include tenant improvements and a parking facility. At present, the property to be developed consists of a blighted commercial building and a vacant lot, formerly a Chevron gas station. FAME Renaissance Plaza will create approximately 200 new jobs. Wells Fargo Bank, who has committed to leasing 4,000 square feet, will be the anchor tenant for our project and will offer, needed banking services to this community. Also, the new project is adjacent to FAME's Renaissance Multimedia Incubator and will provide expansion and growth facilities for tenants as they graduate from the Incubator. The project will be located in the City of Los Angeles.

Metropolitan Water District of Southern California

Proposed Modifications to the San Diego Pipeline No. 6 Project

Contact: John Vrsalovich, (213) 217-6066

The proposed project modifications would primarily affect lands adjacent to Riverside County dedicated road rights-of-ways (i.e., Borel and Anaza roads). In addition, an approximate 1.6-mile stretch would be constructed within the recently inaugurated W. Ruel John Ecological Reserve (Johnson Ranch Reserve), along a maintained dirt path formerly known as Buck Road.

The proposed project modifications to the originally approved Project would involve changes with respect to the design, procurement, and construction phases of approximately seven miles of ten-foot diameter pipe and appurtenant facilities (collectively referred to as the northern pipeline portion of San Diego Pipeline No. 6). The installed pipeline would have a delivery capacity of 600 cubic-feet-per-second (cfs) of 388 million gallons a day (MGD). To accommodate this construction, the proposed project modifications would involve:

1. The acquisition and use of nearly 125 acres of temporary construction, storage and staging areas;
2. Relocation of the hydraulic connection point at Lake Skinner;
3. Installation of a service connection to RCWD; and
4. Acceleration of the construction schedule and change in construction methodology to accommodate short-range demand projections in the Skinner service area.

Los Angeles Unified School District

Los Angeles Unified School District New School Construction Program

Contact: Nicole Cobleigh, (213) 633-8805

The Los Angeles Unified School District (LAUSD) has begun a long-range multi-phased program to construct new schools and modernize existing school campuses. The program will provide 200,000 new classroom seats to fulfill the LAUSD Board of Education's goal to provide sufficient seats so that all students will be educated on a single-track, two-semester traditional 180-day instructional calendar. Phase I has already begun and will provide 78,000 classroom seats. With the passage of the November 2002 Measure K bond, funding was provided for the implementation of Phase II, which includes activities designed to increase classroom space to achieve class size reduction to pre-1990 levels and end involuntary busing students outside the attendance areas.

The total area of the district is 704 square miles. In addition to the City of Los Angeles, the district boundaries include all or parts of 25 other cities, as well as some unincorporated areas of Los Angeles County.

Community Redevelopment Agency of the City of Los Angeles

Proposed 375 East Second Street Development

Contact: Robert Manford, (213) 977-1912

The project site is approximately 0.63 acres, and is located at 375 E. Second Street (northwest corner of East 2nd Street and Central Avenue), within the Little Tokyo area of the City of Los Angeles. The proposed Project entails the construction and operation of a six-story building, with commercial (retail) space on the ground floor and five stories of residential space above. The proposed Project would provide a total of about 110,547 square feet, including 96,047 square feet of residential floor area (124 units), 12,500 square feet of retail space, and 2,000 square feet within common areas (including a fitness center, spa, and lobby). Eighty percent of the units (99 units) would be market rate and 20 percent (25 units) would be affordable.

Los Angeles Valley College Facilities Master Plan

Contact: Cindy Sardo, (818) 947-2433

The Master Plan proposes the construction of new facilities and renovation and modernization of an addition to existing facilities, demolition of a number of existing buildings, and the development of new surface parking and landscaping. Completion of the project proposed under the Master Plan would result in an increase of approximately 256,000 gross square feet (gsf) and would provide 4,170 parking spaces. Valley College is located in the Valley Glen area of the San Fernando Valley in the city and county of Los Angeles.

Destination O-4 Retail Center; Conditional Use Permit 03-03/Tentative Parcel Map 27019

Contact: Richard Kite, (661) 267-5200

The Destination O-4 retail center is a proposed 357,060 square foot retail center to be located on 34.92 acres. Primary uses within the project site will include 224,000 square foot Major 1 "big box" retail tenant; up to two (2) sub-major retail tenants of approximately 51,000 square feet each, and up to six (6) smaller commercial outpad uses totaling approximately 24,000 square feet. The proposal also provides for construction of supporting parking areas, internal and perimeter landscape/hardscape elements, site lighting, vehicular access/on-site circulation, pedestrian walkways, and all necessary utility improvements.

The project site is located in the City of Palmdale, approximately one-quarter mile northeasterly of State Route 14, and east of 10th Street West between Avenue O-4 and avenue O-8.

La Jolla Recharge Basin

Contact: John C. Kennedy, (714) 378-3304

The proposed project is the construction of a water recharge basin, as a means to increase recharge into the Orange County Groundwater Basin. The new recharge basin would add an additional 9,000 acre-feet recharge capacity per year. The proposed ten-acre recharge basin will have a perimeter access road, 3:1 side slopes, a maximum depth of 20 feet, a basin access ramp, and an area where material removed from the basin during cleaning can be temporarily stored. Water for the recharge basin will be provided from the Miller Recharge Basin via Carbon Creek.

The proposed La Jolla recharge basin site is located in the City of Anaheim on an approximately ten-acre parcel near the northwest corner of the intersection of West La Jolla Street and Red Gum Street.

Chapman University Specific Plan Amendment No. 5

Contact: Christine Kelly, (714) 744-7223

This DEIR addresses potential environmental impacts associated with the implementation of the Chapman University Specific Plan Amendment No. 5 (SPA 5) Project (sometimes referred to as "the Project"). Legislative actions for the implementation of the Project include a General Plan Amendment (Land Use and Circulation Elements), Specific Plan Amendment, Zone Change, Street Vacation, and Site Plan Approval. In addition, the Project proposes to add approximately 17.12 acres to the overall Specific Plan Area to accommodate future University expansion efforts, including the proposed site for the School of Film and Television (Phase 1), and other academic efforts, including the proposed site for the School of Film and Television (Phase 1), and other academic uses. This addition will result in the expansion in size of the Specific Plan Area from 40.35 acres to 57.47 acres. Another component of the Project is the construction of adequate parking facilities within the Specific Plan Area. The University is located in the city of Orange, Orange County, California.

South Coast Air Quality Management District

Proposed Amendments to Rule 1162-- Polyester Resin Operations

Contact: James Koizumi, (909) 396-3234

The proposed project would affect composite fabricators that apply gel coats to an open molding surface. The objective of PAR 1162 is to postpone the nonatomizing application requirement from July 1, 2003, to July 1, 2004. Delaying the final compliance date for the nonatomizing application requirement would allow time for field testing to more precisely define nonatomizing application techniques. Proposed amended Rule (PAR) 1162 applies to the South Coast Air Basin, which includes all of Orange County, and the non-desert portions of Los Angeles, Riverside and San Bernardino counties and the Riverside County portions of the Salton Sea Air Basin and the Mojave Desert Air Basin.

Treatment Plant No. 2 Headworks Replacement Project Supplemental EIR No. 2

Contact: Jim Herberg, (714) 962-2411

The proposed project would replace the existing Headworks at Plant No. 2, which receives wastewater from five major trunk sewers within the District's service area. Bushard, Miller-Holder, Coast, Newport, and Interplant. The new Plant No. 2 Headworks facility would provide the point of entry for the trunk sewers, measuring their flow and providing grit and debris. Plant No. 2 is located in Huntington Beach adjacent to the Santa Ana River (SAR) about 1,500 feet from the Pacific Ocean. The plant is located on approximately 110-acres bounded by Brookhurst Street on the northwest, Pacific Coast Highway on the southwest, and the SAR on the east.

Commercial WECS Permit No. 112, Change of Zone No. 6723, Variance No. 1739

Contact: Jay Olivas, (760) 863-8277

The proposed project includes a commercial Wind Energy Conversion System (WECS) permit, change of zone, and variance. Fast Track Commercial WECS Permit No. 112 (FTA#2001-26) proposes to install and operate wind turbines, either Alternative Site Plan 1 reflecting 36 wind turbines or Alternative Site Plan 2 reflecting 35 wind turbines, with ancillary facilities including electrical substation, construction staging areas, and off-site electrical utility lines; and Fast Track Change of Zone No. 6723 proposes to change the existing zoning classification of the subject site from W-2 to W-E; and Fast Track Variance Case No. 1739 proposes to reduce the scenic setback along the northerly side of Interstate 10 from 1,000 feet to 600-feet, as measured from the I-10 right-of-way line within the project boundary.

The project site is a 357 acre property located in unincorporated Riverside County, north and south of Interstate 10, and east of State Highway 62; the southern project area (Site 1) is located at the southeast corner of Garnet Avenue and Kellogg Road (dirt road); the northern project area (Site 2) is located approximately 1/2 mile east of State Highway 62 and south of Dillon Road in portions of Sections 8 and 17, T3S, R4E, SBBM, in the Pass & Desert Zoning District of the Fifth Supervisorial District.
